

MYTHRI MUTYAPU

+91 9652681840 ◇ mutyapu.mythri@gmail.com ◇ LinkedIn ◇ GitHub ◇ Portfolio

Summary

CSE undergraduate with hands-on experience building full-stack applications and AI-integrated platforms using Python, React.js, Node.js, and LLMs. Skilled in RESTful API design, RAG-based retrieval, OCR pipelines, with a strong foundation in Data Structures, OOP, and DBMS.

Education

VNR Vignana Jyothi Institute of Engineering and Technology, Hyderabad	2023 – 2027
Bachelor of Technology in Computer Science and Engineering	CGPA: 9.10

Work Experience

Infosys Springboard	Dec 2025 – Feb 2026
---------------------	---------------------

Web Development Intern

- Engineered a full-stack application utilizing Role-Based Access Control (RBAC) to automate event management logistics for multiple institutions.
- Architected scalable RESTful APIs and analytics dashboards to handle high-concurrency registrations, optimizing participant data processing.

Technical Skills

Programming Languages: Python, Java, C, C++, JavaScript
Technologies: HTML5, CSS3, Bootstrap, React.js, Node.js, Express.js, LangChain
Databases: MySQL, MongoDB
Other Tools: Git, GitHub, VS Code, Postman, Eclipse, Claude, GitHub Copilot, Antigravity
Core Concepts: Data Structures & Algorithms, OOP, DBMS, OS, CN, REST APIs

Projects

Enterprise Decision Intelligence Platform	GitHub
---	--------

Tech Stack: Python, FastAPI, React.js, MongoDB, Google Gemini API, Railway, Vercel

- Developed a full-stack AI-powered enterprise decision intelligence platform using FastAPI and React.js with multi-agent workflows, secure authentication, incident management, and RESTful APIs.
- Implemented AI-driven incident analysis, memory-based retrieval, document ingestion, approval workflows, and MongoDB persistence to support enterprise decision-making and cloud deployment.

AI Interview Trainer Platform	GitHub
-------------------------------	--------

Tech Stack: React.js, Node.js, Express.js, MongoDB, OpenAI API, LangChain

- Developed an AI-powered interview preparation platform that generates personalized mock interviews from candidate resumes and job descriptions.
- Leveraged RAG-based resume context retrieval and OpenAI models to enhance interview question generation and feedback relevance.

Smart Invoice & Document Analyzer	GitHub
-----------------------------------	--------

Tech Stack: MongoDB, Express.js, React.js, Node.js, Tesseract.js, pdf-parse, LayoutLMv3

- Developed a MERN-based invoice analysis system using OCR (Tesseract.js and pdf-parse) to automatically extract structured information from PDF and image documents.
- Built machine learning-based expense categorization and interactive analytics dashboards, and explored LayoutLMv3-based transformer models for intelligent document understanding and invoice field extraction.

Extra-Curricular Activities

- Volunteer, Computer Society of India (CSI), VNR VJIET
- Smart India Hackathon (SIH) Internal Round Participant
- Solution Challenge Hackathon Participant – Google Developer Groups on Campus (GDGC)

Certifications & Achievements

- Java Fundamentals Certification – Infosys Springboard
- Web Development Certification – Infosys Springboard
- Diamond Certified Smart Coder – Smart Interviews
